

Firwood 2700 - Water borne two pack epoxy floor seal

Description

Firwood 2700 is a multipurpose, water borne, two pack epoxy floor seal. Based on a solvent free epoxy system, this coating has excellent resistance to chemicals, water, oils, greases and mechanical abrasion.

Firwood 2700 can be used as an anti-slip coating with the addition of the fine aggregate included with the product. This makes it ideal for areas requiring extra traction where potential slip hazards exist.

Features & Benefits

- Very hard wearing
- Solvent free
- Use as full gloss or anti-slip
- Low odour
- Easy to apply
- Suitable for vehicles & fork lifts
- Good chemical resistance
- Lead free
- Adheres to concrete, steel and ceramic tiles

Areas of Use

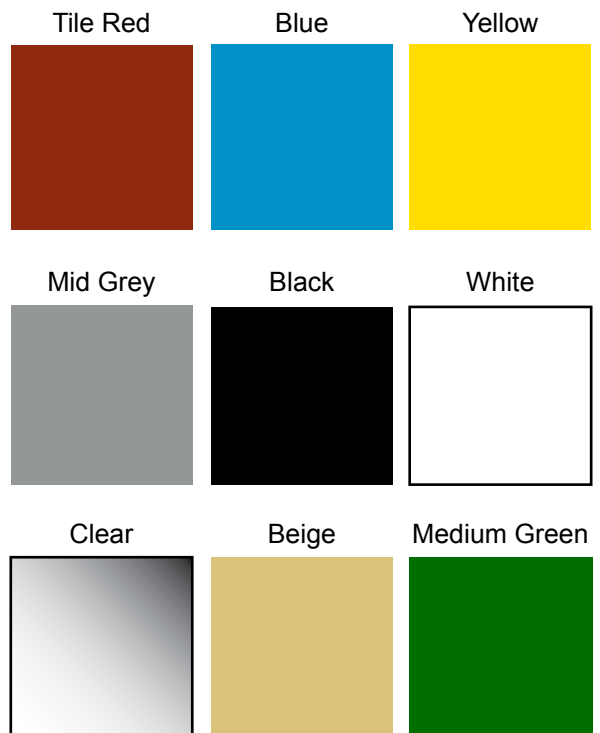

- Factory Floors
- Warehouses
- Workshops
- Showrooms
- Production Areas
- Parking Areas
