

## Thinners/Degreaser

<b>Description</b>	A high boiling point non aromatic solvent for the thinning of paints and de greasing of substrates
<b>Recommended Use</b>	<p>Suitable as a general purpose cleaning fluid for professional use only. Ideal for engineering and plant cleaning. Can be used for the removal of grease and oils from floors and walls prior to painting.</p> <p>Can also be used as paint thinners. Refer to the paint tin to check on the recommended thinners for the paint. Add as required, usually no more than 5-10% required by volume. Avoid over thinning in cold weather when the paint will naturally increase in viscosity.</p>
<b>Compliance</b>	Refer to DEFRA Process Guidance Note 6/45(11) Statutory Guidance Note for Surface Cleaning for information on the statutory obligations regarding the use of solvents for surface preparation.
<b>Recommended Application Methods</b>	De-greasing - brush or wiper. Use lint free wipers.
<b>Colour</b>	Clear liquid
<b>Packaging</b>	<p><u>Pack Size</u> : 5 litres</p> <p><u>Shelf Life</u> : 2 years from shipment date when stored in unopened, original containers.</p> <p><u>Storage</u> : Store in temperature range 5-30°C</p>
<b>Directions for use - De-greasing</b>	<p>Wipe off surface dust and other contaminants.</p> <p>Wipe the full surface to be coated with the de-greaser and remove with a clean wiper whilst the surface is visibly wet.</p> <p>Regularly replace the wiper with a clean one or grease may get spread over the surface.</p> <p>For further information contact our Technical Service Department.</p>
<b>Thinning of paints</b>	<p>Use the recommended thinners for the paint being thinned. This is usually shown on the product label.</p> <p>Add the solvent slowly up to a maximum of 10% by volume. Stir well to ensure a homogenous mix.</p>
